

Irish Dance

Colleen: Major research with the top performers and trainers has resulted in a significantly improved Colleen. The new design, incorporating a strap, gives maximum flexibility while the shoe is softer and more supple than before.

Brigadoon: Brigadoon continues to be the only shoe of its type made in the time-honoured "turned shoe" construction. The shoe has been refined and developed to give it a new short toe and low vamp, giving the foot a small slim appearance.
